

# GRADUATION PROJECT RESEARCH TOPIC PROPOSAL

Name: Jessica Hobby English Teacher/Block: Danahower / 4th  
(print)

## RESEARCH TOPIC INFORMATION

Graduation Project Question (big idea):

Should the government pay to have  
animals spayed & neutered?  
& vaccinated

I will need to answer these questions to determine the answer to my GP Question (small ideas):

Will it be less expensive to spay & neuter the animals  
now or when they have care takers? How many animals  
are in the pound now?

My rationale for choosing this topic:

BC over the summer I've found a lot of animals  
around my house & tried finding homes for them  
but no one has the money for it.

This topic will be a learning stretch for me because:

I can help out & know what I can do to  
help more animals find a home.

## PRODUCT INFORMATION

Detailed description of potential Product

(location, expenses, materials needed, community involvement, reason for choosing this product):

Volunteer.

PARENT STATEMENT

Parent/Guardian: Please describe why you think the Research Topic your son or daughter has chosen is appropriate for him or her. What does he or she already know about the topic? How will this research build on or create new knowledge for your child?

Because she loves animals and is a very good care giver. Seeing abandoned animals and always wanting to give them a home or find them a home. Knowing that pounds put animals down (to sleep) when homes are not found for them. She knows the expense involved of raising/keeping animals. That sometimes it is harder and more expensive with so many animals in the world to maintain.
